# Elements

More tech. Further proof Mustang offers more than muscle.

A

**A | HID HEADLAMPS**<sup>1</sup> emit approximately 2½ times as much light as the conventional versions. A special quartz bulb generates a penetrating, bluish-white light.

B

**B | EASY FUEL® CAPLESS FUEL FILLER** originated at the race track. Fill-ups are made simpler – no screw-on cap to tighten, loosen or lose. The system self-seals to protect against dust, water, snow and ice.

C

**C | BLIND SPOT MIRRORS** are built into each sideview mirror. They're convex, reflecting the image of approaching vehicles as they enter your blind spots.

D

**D | ADVANCETRAC®** electronic stability control<sup>2</sup> keeps you in control. And on track. It works in conjunction with the four-wheel disc ABS and all-speed traction control.

**HD RADIO™**<sup>1</sup> makes for crystal-clear, digital listening. Pumping out FM audio with near-CD quality. And giving AM an FM sound – no static at all. In addition, you get innovative FM programming (new HD2/HD3 channels) along with on-screen data: song, artist, breaking news, weather alerts, sports scores and more. Even better, HD Radio is subscription-free.

**BREMBO™ BRAKE PACKAGE**<sup>1</sup> includes the high-performance stopping power of 14-in. Brembo vented front rotors. Teamed with Brembo four-piston calipers. Brembo is a world leader for braking systems – be it for street or racing circuit.

<sup>1</sup>Available. <sup>2</sup>Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
