

# TOUGH ENOUGH TO NEVER SAY NEVER.

F-Series Super Duty® Chassis Cab never stops working. Purpose-built Ford powertrains make sure of it, delivering robust torque and laudable fuel economy. Standard traction control systems boost towing confidence. And a class-exclusive<sup>1</sup> Live-Drive Power TakeOff (PTO) allows it to handle jobs other trucks of its size couldn't even touch. That's the strength of America's Most Versatile Chassis Cab. A strength derived from enduring more torture testing than any Ford Super Duty before it. Tough never rests.

# MAKES THE MOST OF EVERY DIESEL DROP.

Designed, engineered and built by Ford, the 6.7L Power Stroke® V8 Turbo Diesel<sup>1</sup> helps this Super Duty® deliver up to a 24% improvement in fuel economy over the previous generation, while also giving you more torque. We're talking a massive 660 lb.-ft. of torque, along with 300 horsepower. That's a game-changing combination. And this B20-capable engine has already proven itself over miles of cumulative testing. More than 10 million miles, to be exact. It's the most tested Power Stroke diesel engine ever.

**Delivers maximum power quickly.** The diesel engine's single-stage variable-geometry turbocharger uses a compact, efficient design to help deliver maximum power quickly.

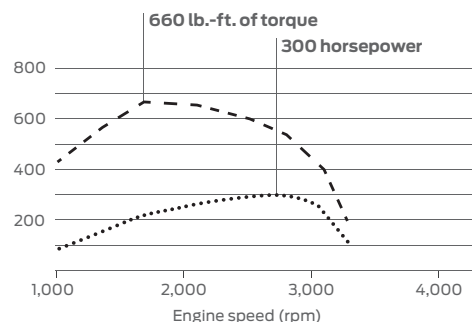

**Helps maintain the peace.** With its notably quiet, refined sound, our diesel helps reduce NVH – the result of meticulous attention paid to the combustion system, engine block and turbocharger designs.

**Powers upfits anytime the engine's running.** Whether you're in motion or at a complete stop, you can power your upfits with the diesel and our class-exclusive Live-Drive Power TakeOff (PTO) provision.<sup>1</sup> It keeps the job going with an output gear linked directly to the engine crankshaft.

**Cleanest Super Duty diesel ever.** This engine utilizes industry-proven technology and innovative Ford strategies to meet the latest federal emissions standards – reducing nitrogen oxide (NOx) levels by more than 80% compared to the previous-generation diesel. For your part, just watch for a low diesel exhaust fluid (DEF) alert in the vehicle's message center, then locate the blue DEF fill cap next to your green diesel fuel cap and replenish the DEF supply. The reservoir holds 6 gallons of Ford-approved DEF, which can be purchased from your Ford Dealer or other authorized retailers.

## 6.7L V8 Diesel Performance

<sup>1</sup>Available feature.

## TAKES OFF AND RUNS WITH YOUR UPFITS. IN MOTION OR AT A STOP.

A class-exclusive Live-Drive Power TakeOff (PTO) provision on the diesel powertrain<sup>1</sup> gives Super Duty® Chassis Cab capability normally reserved for trucks twice its size. This helps Super Duty get big-truck capability to previously inaccessible locations, providing the power *and* agility that fire departments, road crews and many others need from their trucks. And since the PTO output gear is directly linked to the engine crankshaft, power is available anytime the engine is running (whether the vehicle is moving or not). So say goodbye to low performance ratings and difficult installations. And say hello to the increased productivity of Super Duty.

Special thanks to the volunteer firefighters of Malta & McConnelsville, Ohio.

### Harnesses power.

Blending the control of a manual with the convenience of an automatic, the Ford TorqShift® 6-speed SelectShift Automatic™ transmission allows you to use its full manual mode to lock the torque converter and hold your chosen gear. Or utilize the progressive range select mode to lock out upper gears when the truck is heavily loaded or when towing on grades. Your options are truly open. Designed, engineered and built by Ford, this heavy-duty transmission is filled with innovations, including an enhanced tow/haul mode that provides better control while hauling heavy loads or towing trailers, especially when descending steep grades.

### Endures torturous testing.

Reliability testing simulated 10+ years of customer abuse. Computer-based methods helped design for durability. Loads of up to 33,000 pounds, and over 10 million miles of cumulative testing, proved component strengths. Like those of a high-strength sinter-metal carrier with patented Ford rocker one-way clutch that's designed to easily handle the enormous low-end torque of the diesel engine, as well as the high speeds of the gas engine. Or a high-capacity, high-efficiency fluid filter that extends fluid and filter change intervals up to 150,000 miles. All to produce a Super Duty Chassis Cab that can handle the demands of your job, fully loaded, with no problem.

# SPORTS BEST V8 GAS HP AND TORQUE IN ITS CLASS.<sup>1</sup>

As the standard engine on F-350, the Ford built 6.2L V8 engine helps Super Duty® generate best-in-class 385 horsepower and 405 lb.-ft. of torque.<sup>1</sup> Rest assured this free-breathing, E85-capable engine is ready for work. The Ford powertrain team designed, engineered, built and torture-tested it themselves. These are just some of the strengths of the 6.2L V8 powerplant:

**Handles alternative-fuel upfits.** The CNG/LPG Gaseous Engine Prep Package<sup>2</sup> includes hardened valves and valve seats to help ready your Super Duty for Biodiesel, Compressed Natural Gas (CNG) or Liquefied Petroleum Gas (LPG) upfits.

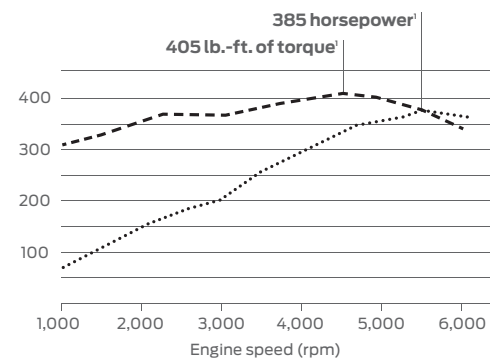

**Produces significant low-rpm torque.** The stiff SOHC valvetrain with roller-rocker shafts also enables an intake- and exhaust-port layout that optimizes airflow.

**Provides extreme durability.** The engine block features reliable cast-iron construction with 4-bolt main bearing caps, including 2 additional cross bolts.

**Stays cool under pressure.** The underside of the cast-aluminum pistons are directly sprayed with oil from the piston-cooling jets to keep them cool under extreme operating conditions.

For more pull, the 6.8L V10 gas engine on F-450/F-550 supplies 457 lb.-ft. of torque.

## HANDS CONTROL THE WHEEL. VOICE CONTROLS THE REST.

### Stay connected to calls and more with SYNC.

No more searching for your phone. No device on your ear. Connect to your world with voice-activated Ford SYNC.<sup>1,2</sup> Once paired, SYNC recognizes your phone and automatically transfers your contacts to support voice calling. Just touch a button on the steering wheel and say things like "Call Kevin," or "Business search: Restaurants." SYNC also offers 911 Assist,<sup>3</sup> and with an activated SYNC Services account you get business searches,<sup>1</sup> turn-by-turn driving directions,<sup>1</sup> custom traffic alerts<sup>1</sup> and more. Personalize your experience at [SyncMyRide.com](http://SyncMyRide.com).

### Switch songs and playlists. Enjoy SiriusXM.

SYNC allows voice-activated control of your media player, too. Just plug it into the USB port and your entire music collection can be accessed by voice. Ask for your favorite artist or playlist ("Play genre: Country") and SYNC responds in an instant. New AppLink<sup>1</sup> lets smartphone users control Pandora<sup>®</sup> internet radio and Stitcher SmartRadio<sup>™</sup> by voice too. All this, in addition to a 6-month trial subscription to over 130 channels of unique content from SiriusXM Satellite Radio.<sup>3</sup>

2012 SUPER DUTY<sup>®</sup> CHASSIS CAB [ford.com](http://ford.com)

# 26,600 LBS. OF POWERFUL POTENTIAL.

To help you achieve this maximum towing capacity,<sup>1</sup> Super Duty® Chassis Cab supplies plenty of help: Telescoping trailer tow mirrors are standard. Class-exclusive PowerScope™ trailer tow mirrors<sup>2</sup> adjust, fold and telescope at the touch of a switch. A tow/haul mode on the diesel powertrain manages gear selection to help keep the engine in its power band for optimal towing performance. And our trailer brake controller uses braking input, vehicle speed and ABS logic to balance the performance of the truck and electric trailer brakes.<sup>2,3</sup> That's ultimate towing confidence.

**Helps you keep it in line.** Our trailer sway control,<sup>4</sup> standard on SRW models, uses a yaw motion sensor to monitor the motions of your truck and detect trailer sway. When sway is detected, the system can automatically react by selectively braking, helping you maintain control of both the truck and trailer. On DRW models, the standard driver-selectable engine-only traction control function can automatically step in to reduce power when it detects a loss of traction.

F-550 XLT 4x4 SuperCab. Oxford White. Available and aftermarket equipment.

<sup>1</sup>When properly equipped. <sup>2</sup>Available feature. <sup>3</sup>Trailer brake controller verified to be compatible with electrically actuated drum brakes and certain electric-over-hydraulic brake systems. See your Ford Dealer for details. <sup>4</sup>Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

## STORES EVERYTHING YOU NEED TO STAY PRODUCTIVE.

With best-in-class interior storage possibilities, including the most power access available in the class (up to 6 locations), Super Duty® helps you master your business. A favorite of those determined to work regardless of the weather is the rapid heat supplemental cab heater,<sup>1</sup> which helps raise the cabin temperature so you and the crew can warm up even when it's frigid outside.

**Opens it up.** The mini-console<sup>1</sup> stores small items while freeing up space for larger ones you'd like to bring along.

**Powers tools and toys.** A 110-volt power outlet<sup>2</sup> on the rear of the flow-through center console lets you power up anything from tools to tablet computers.

## DERIVES ITS STRENGTH FROM A FIRM FOUNDATION.

The 2012 Super Duty® Chassis Cab is Built Ford Tough® with the versatility to support a wide range of applications. And it's backed by over 60 years of hardworking on-the-job experience. Choose from Regular Cab, SuperCab or Crew Cab. Enjoy flexible seating configurations. Benefit from factory-installed upfitter switches and manually telescoping trailer tow mirrors – just a couple of its valuable standards. Whatever your work involves, rest assured that Ford offers a Chassis Cab that can handle the job. It's toughness you can trust – day in and day out.

**Fuel Tank Options** include a 28-gallon midship tank<sup>1</sup> or a dual-tank setup<sup>1</sup> (on DRWs equipped with a diesel engine) that gives you 2 tanks to provide 68 gallons of total fuel capacity.

**Standard 4-Wheel Anti-Lock Brake System (ABS)** uses vented rotors for good heat distribution and dual-piston calipers for consistent stops, even with the heaviest loads.

**Open C-Channel Construction** includes industry-standard 34" frame-rail spacing and straight frame rails behind the cab to accept a broad range of aftermarket bodies.

**Low-Cab Design** optimizes the Super Duty Chassis Cab for a wide array of over-cab upfits.

**Dual Alternators' with a 357-Amp Rating** on the 6.7L Power Stroke® V8 Turbo Diesel provide additional amperage for those accessories and upfits that need it.

**Intelligent Oil-Life Monitor™** on the diesel engine tracks oil temperature, filter regeneration cycles, engine-idle hours and mileage, then alerts you when it's time to change the oil. For optimum performance and engine life, the diesel engine oil filter, fuel filter and coolant should be changed at regularly scheduled intervals.

<sup>1</sup>F-350 DRW/F-450/F-550 weights shown are for 141" wheelbase Regular Cab or 176" wheelbase Crew Cab models. For 165," 189," 200" and 201" wheelbase models, weights may be somewhat less (usually not more than 200 lbs., or 400 lbs. with 201" wheelbase). <sup>2</sup>Requires optional High-Capacity Trailer Tow Package. **5th-Wheel Towing Notes:** Trailer weights shown assume 1,000 lbs. second-unit body weight. Be sure combined weight of vehicle and trailer does not exceed listed GCWR. Trailer kingpin weight should be 15-25% of total loaded trailer weight. Make sure that the vehicle payload (reduced by option weight) will accommodate trailer kingpin weight and the weight of passengers and cargo added to the towing vehicle. The addition of trailer kingpin weight, and the weight of passengers and cargo, cannot cause vehicle weights to exceed the rear GAWR (Gross Axle Weight Rating) or GVWR (Gross Vehicle Weight Rating). These ratings can be found on the vehicle's Safety Compliance Certification Label. See your Ford Dealer for conventional trailer weights.

**New Vehicle Limited Warranty.** We want your Ford F-Series Super Duty® Chassis Cab ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/50,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage – all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty. □ **Roadside Assistance.** Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages. □ **Ford Credit.** Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at [fordcredit.com](http://fordcredit.com). □ **Ford Extended Service Plan.** For a purchase or lease, the Ford Extended Service Plan (ESP) gives you "Peace-of-Mind" protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford dealerships. □ **Insurance Services.** Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at [fordvip.com](http://fordvip.com) for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company. □ **Genuine Ford Accessories** will be warranted for whichever provides you the greatest benefit: 12 months or 12,000 miles (whichever occurs first), or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer's warranty. FLA are fully designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and/or a copy of all limited warranties.
